

PER.GW211SPPB3

These special single row deep groove ball bearings are designed mainly for agricultural applications, such as disc harrows. The square bore enables ease of mounting on mating square shafts. The spherical outside surface accommodates static misalignment when mounted in standard/commercial and compatible housings. The integral sealing and higher than standard grease fill can significantly prolong bearing service life and reduce maintenance efforts.

- Designed mainly for agricultural applications
- Square bore
- Easy to mount and accommodate initial misalignment
- Versatile, robust design
- Integral sealing and higher than standard grease fill prolongs bearing service life

Dimensions	
Bore diameter	38.887 mm
Outside diameter	100 mm
Width	33.338 mm
Performance	
Basic dynamic load rating	43.4 kN
Basic static load rating	29.2 kN
Properties	
Bore type	Square
Logistics	
Product net weight	1.11 kg

AGA BEARINGS
