

PER.W211RPP2-A

These special single row deep groove ball bearings are designed mainly for agricultural applications, such as disc harrows. The spherical outside surface accommodates static misalignment when mounted in standard/commercial housings. The integral sealing and higher than standard grease fill can significantly prolong bearing service life and reduce maintenance efforts.

- Designed mainly for agricultural applications
- Round bore
- Easy to mount and can accommodate initial misalignment
- Versatile, robust design
- Integral sealing and higher than standard grease fill prolongs bearing service life
