

PER.206HPPB5

These special single row deep groove ball bearings are designed mainly for agricultural applications, such as combine harvesters, balers. The hexagonal bore enables ease of mounting on mating hexagonal shafts. The spherical outside surface accommodates static misalignment when mounted in standard/commercial housings. The integral sealing and higher than standard grease fill can significantly prolong bearing service life and reduce maintenance efforts.

- Designed mainly for agricultural applications
- Hexagonal bore
- Easy to mount and accommodate initial misalignment
- Versatile, robust design
- Integral sealing and higher than standard grease fill prolongs bearing service life

| Dimensions                |           |
|---------------------------|-----------|
| Bore diameter             | 25.425 mm |
| Outside diameter          | 62 mm     |
| Width                     | 26.924 mm |
| Performance               |           |
| Basic dynamic load rating | 19.5 kN   |
| Basic static load rating  | 11.3 kN   |
| Properties                |           |
| Bore type                 | Hexagonal |
| Logistics                 |           |
| Product net weight        | 0.289 kg  |
