

PER.205KRR1116-HXE9-A

These special single row deep groove ball bearings are designed mainly for agricultural applications, such as combine harvesters, balers and planters. The hexagonal bore enables ease of mounting on mating hexagonal shafts. The integral sealing and higher than standard grease fill can significantly prolong bearing service life and reduce maintenance efforts.

- Designed mainly for agricultural applications
- Hexagonal bore
- Versatile, robust design
- Integral sealing and higher than standard grease fill prolongs bearing service life

Properties	
Bore type	Hexagonal
Logistics	
Product net weight	0.267 kg
eClass code	23-05-16-90
UNSPSC code	31171536
