

PER.W208HPPB16

These special single row deep groove ball bearings are designed mainly for agricultural applications, such as combine harvesters, balers. The hexagonal bore enables ease of mounting on mating hexagonal shafts. The spherical outside surface accommodates static misalignment when mounted in standard/commercial housings. The integral sealing and higher than standard grease fill can significantly prolong bearing service life and reduce maintenance efforts.

- Designed mainly for agricultural applications
- Hexagonal bore
- Easy to mount and accommodate initial misalignment
- Versatile, robust design
- Integral sealing and higher than standard grease fill prolongs bearing service life

Dimensions	
Bore diameter	31.78 mm
Outside diameter	80 mm
Width	36.51 mm
Performance	
Basic dynamic load rating	32.6 kN
Basic static load rating	19.9 kN
Properties	
Bore type	Hexagonal
Logistics	
Product net weight	0.606 kg

AGA BEARINGS
